Call for Papers

The authors are invited to submit their full papers to SCIS&ISIS2018. The submissions will be peer-reviewed for originality and scientific quality. The conference proceedings will be submitted to the IEEE Xplore® digital library. They will be also applied for Ei Compendex, an engineering bibliographic database published by Elsevier. The excellent full papers will be selected for extension and publication in special issues of international journals.

ISWS2018 welcomes the submission of late-breaking papers or position papers, which do not need to present the completed research work necessarily. Some papers submitted to SCIS&ISIS2018 may be accepted as ones of ISWS2018. The submissions will be peer-reviewed for originality and scientific quality. All accepted papers will be published in USB proceedings, but not covered by IEEE Xplore® digital library nor Ei Compendex.
